Funded organisations should so be willing to discuss the progress of the project over the phone as and when necessary and to host visits that will assist with learning and best practice.

Before beginning the project, we suggest you consider:

- Who will write the interim progress reports and end of grant monitoring form report
- What your aims and objectives are and how will you track progress against these
- What information you will collect:
  - Quantitative data (numbers) – how many people are taking part or using the service, achieved goals (e.g. employment, improved health)
  - Qualitative data (stories/case studies) – feedback from users and volunteers, observed increase in skills, confidence etc.
  - Learning – feedback from project participants, what went well, what would you do differently etc.
  - Feedback from partner organisations
