LUTON RISING NEW HORIZONS FUND

A FUND MANAGED BY
BEDFORDSHIRE AND LUTON COMMUNITY
FOUNDATION

ON BEHALF OF
LONDON LUTON AIRPORT LTD
TRADING AS LUTON RISING

Introduction

The Luton Rising New Horizons Fund is administered by the Bedfordshire & Luton Community Foundation (BLCF), on behalf of Luton Rising.

The recent publication of the 2025 Index of Multiple Deprivation (IMD) measure has demonstrated that relative deprivation has increased in Luton, now ranking as the 45th most deprived area out of 296 local authorities, compared to a ranking of 70th in 2019.

Luton Rising's community funding is focused on delivering social impact in line with the Luton 2040 vision, to make Luton a healthy, fair and sustainable town where everyone can thrive and no one has to live in poverty by the year 2040. Therefore, to improve the town metrics, Luton Rising will be investing £400,000 (per year for 2 years) into this new funding pot to provide grants which exist to support the delivery of targeted preventative interventions that alleviate poverty and prevent destitution. This fund will therefore prioritise projects in Luton wards containing areas within the top 10% most deprived in the UK (see Appendix A).

Luton Rising and BLCF aim to work in partnership with grantees in delivering transformation. Therefore, a crucial element of the funding criteria is for grantees to monitor and report tangible changes across the 2 years of funding.

How Much Can Groups Apply For?

Grants of up to £50,000 per year for 2 years (max £100,000 total per grantee) to support Luton residents.

Funding must be to support a particular piece of work and form part of the organisation's core service delivery.

Funding must be spent between May 2026 – May 2028.

Funded activity must fit with the priorities of the fund. **Up to 15%** of the grant can be used **for core costs**, such as rent and utilities. The rest should be used for project or activity delivery costs. If you have any queries, please contact us at grants@blcf.org.uk

If your programme has previously been funded by Luton Rising, you will need to provide clear evidence in your application demonstrating the impact achieved to date and plans to extend this impact.

Priorities

Specifically, this fund aims to target the 20,000 residents in Luton Living in destitution.

Applicants must clearly address one of the following priorities:

- 1) Preventing and reducing destitution through early intervention activity in identified priority neighbourhoods, addressing the root causes of poverty. (See Appendix B for definition of 'destitution').

- 2) Strengthening financial resilience and independence among people living in or at risk of destitution through access to advice, skills, employment pathways and cost of living support.
- 3) Reducing inequality and improving life chances by empowering priority neighbourhoods to develop sustainable solutions to poverty. This may include fostering collaboration between residents, community groups and service providers, sharing resources and creating spaces that strengthen resilience and reduce isolation.

Applicants must also be able to demonstrate that they:

- Have the capacity, knowledge, skills, and resources to deliver their activities effectively and to a high measurable quality.
- Have proper financial management, are in good financial health, and not holding an amount of unrestricted funds that are disproportionately high in relation to annual expenditure.
- Can collect, manage, and report data to the funder as agreed, to show the impact of the work (monthly data collection, regular monitoring reports and provision of case studies).
- Are committed to the promotion of equality, diversity, and inclusion both within client groups and across the community. This should be clearly demonstrated through the way you plan and deliver your work and activities, and your engagement with [Luton's Fairness Taskforce](#).

Priority will be given to organisations that:

- Deliver preventive work and can demonstrate that the proposed work will address this.
- Work in partnership or collaboratively, through clear, measurable and accountable partnership agreements. This should be with partners from complementary fields or with expertise and opportunities which will further the long-term impact of their work.
- Participate actively in peer-to-peer learning and evaluation work, attend workshops to support these and are developing a theory of change approach to their work.
